Unpaired Real LQ example y^{real}

Prompt 1
Analyze the possible types of degradation this image may contain

VLM Block 1
Degradation Analysis

Degradation Description
The analysis based on the image content is described below: Motion blur (severe); resolution drop (moderate)

d

Prompt 2
Imagine the final appearance after superimposing these degradations onto the current reference image

VLM Block 2
Degradation Instantiation

Image-Specific Degradation Description
The image exhibits **severe motion blur** across the entire frame. All textual information—such as the title **"SPRING 2020 INTRAMURAL DATES"** and the listed event dates—extends noticeably to the right with elongated trailing streaks.
